

Mittelwertkoordinaten (M. Floater 2003)

$$W_4 = \frac{Q_4 Q_5}{\overline{XP_4}}$$

$$= \frac{\tan \frac{\alpha_4}{2} + \tan \frac{\alpha_5}{2}}{\overline{XP_4}}$$

$$W_i = \frac{\tan \frac{\alpha_i}{2} + \tan \frac{\alpha_{i+1}}{2}}{\overline{XP_i}}$$

$$\alpha_i = \angle P_{i-1} X P_i$$

$$\lambda_i = \frac{w_i}{w_1 + \dots + w_i}$$
